

2021 WGCC
Private Cart Storage/Trackage Agreement

1. The owner and/or registered user of a golf cart who is utilizing the cart trackage/storage facilities must be a member in good standing of the Woodstock Golf & Curling Club (hereinafter referred to as "the Club").
2. Trackage/storage fees will be determined by the Club on an annual basis.
3. The owner/operator of the cart is responsible for the following:
 - a) Trackage/storage fees must be paid prior to cart being stored in the storage facility.
 - b) The power cart must be in good working condition. The Club reserves the right to disallow the use of the power cart if it is deemed detrimental to the course, environment, or enjoyment and pleasure of other golfers.
 - d) Owner/operators of carts will be responsible for damage to golf course property or other property, equipment or individuals from any cause whatsoever involving their carts.
 - e) Storing golf clubs and other valuables in the storage facility is not recommended. The Club does not insure your cart, equipment or belongings while at the golf course or in the storage building.
4. A maximum of two (2) owners may sign the trackage/storage agreement; thereby, allowing for joint ownership. A maximum of two (2) other cart users may be added to the cart registration at additional cost.
5. One of the owners or registered users must, at all times, be in the cart while it is being operated.
6. Cart owners must not rent or lend their cart to anyone except the Club. The Club may make private arrangements with the members of the Club for use of their carts.
 - a) Special circumstances may arise when all Club carts have been rented. At such times, if the cart owner is agreeable, special arrangements may be made between the Club and the cart owner to rent the cart.
 - b) The Club may allow a cart owner to lend their cart for use to a registered owner/user of another cart. Such circumstances will be reviewed and approved by the Club on a case by case basis.
7. Carts must be kept on paths around all tees and greens. After reaching a point not closer than 40 feet from the green, proceed to the cart path. Carts must remain on path on all Par 3's. Do not park on mounds around greens and sand traps.
8. Music is permitted at an appropriate volume that does not disturb other golfers.
9. To relieve congestion at the Clubhouse, power carts should be returned to the storage facility as soon as possible.
10. Gasoline or oil may not be stored in the cart storage facilities. Refueling will take place outside the storage facility.
11. When the current renter relinquishes the cart storage space, that space will be reallocated by the Club. This reallocation will be done according to the Club's wait list. The rental space does not transfer with the sale of the cart, unless approved by the Club.
12. The owner/operator acknowledges that there are certain risks of physical injury and damage to personal property by operation of the power carts, and the owner/operator agrees to assume all risk of any injury to person or property, including death, or for loss of time or other loss or damage which the Club or any other person may sustain as a result of any activity connected with the owner/operator's operation of a power cart pursuant to this Agreement. Further, the owner/operator agrees to waive and relinquish all claims of injury to person(s), property, including death, or for loss of time or other loss or damage, the owner/operator may have against the Club or golf cart owner/operator, their officers, agents, and employees, holding them harmless and indemnifying them from all such damages that may arise as a result of operating the power cart indicated on the reverse side of this form.
